A blended learning environment offering students the best of two worlds: self-paced internet-based instruction and face-to-face support, socialization, and extra-curricular activities.

Students will engage in virtual and in-person instruction with a certified Muskogee Public Schools teacher through Edgenuity.

Students must:
- be a Muskogee Public Schools 3rd-12th grade student.
- have recommendation from previous year’s principal/teacher.
- participate with parent/guardian in required orientation.
- attend on-site supports on one assigned day weekly.
- maintain a “C” or higher grade point average.
- complete required course content.
- communicate with teachers/staff weekly.
- maintain state mandated attendance rate (90%).

Roughers Innovations Academy students will be able to participate in ALL extracurricular activities that traditional students participate in.

*PARENT/SELF TRANSPORT REQUIRED.

On-Site Supports are additional components of the program that will help ensure Roughers Innovations Academy students receive a well-rounded educational experience. These On-Site Supports include, but are not limited to Social-Emotional Connections, Academic Commitment to Education, Fitness and Nutrition, Creative Expressions, Collaborative Instruction, and monitored Independent Study Time.

These required On-Site Supports will not count toward GRADES, but time spent in these learning activities will count toward the total time necessary to meet ATTENDANCE REQUIREMENTS.
